# "MEN AMONG MANKIND"

By  
Brinsley Le Poer TRENCH.

TWO years ago we published a sensational book about flying saucers, "THE SKY PEOPLE", which proved a big seller and was acclaimed all over the world.. In this brilliant new work, the author presents the startling theme that the course of history has been changed abruptly, from time to time, by certain unusual men who have appeared suddenly on the scene.

## WHO WERE THESE UNUSUAL MEN ?.

There is much in this unique book to make you think. Most people like to roll over and have better dreams. Are you one of the majority or do you like to think for yourself.?

This scholarly work is in a class by itself. It directs new and hitherto unpublished knowledge and light on the coming of the Sky ships. It is one of the most remarkable books ever published and we predict an even greater success for it than that achieved by the still steadily selling best seller. "THE SKY PEOPLE".

### " FANATICISM "

One of the great dangers of any subject which requires intense study and attention. is the tendency of the most keen to get so absorbed in it that they become " one-eyed " or fanatical in their approach , instead of maintaining a balanced view of things .

The subject of the UFO has not been entirely free from such folk . and whilst we cannot condemn the subject because of them , for they happen in all forms of thought , it does behove us to endeavour to steer clear of any tendency to leave the 'middle of the road' from where we are able to keep a clear view of both sides and not let our vision become distorted.

Among the many indirect avenues which are associated with the UFO is the subject of Vegetarianism. and this is due to the belief that many have, that the people from Space are completely so. and that in most cases they have advised earth people to follow their example.

It is not my desire here to enter into the pros and cons of such guidance from outer space in this article. for " vegetarianism " is not new to many , for such has been practiced by many sects and believers for long period of time . and well before the present advent of " Saucers ". Personally the Editor strongly favours living on completely fresh products of the earth in fruit and vegetables. but is NOT a strict vegetarian as some in that he does eat fish and eggs. which some vegetarians frown upon. Also he strongly insists that never will he embarrass a host by insisting on his desires. and will always be kindly and considerate to them and if such is placed before him which he normally does not partake of. then he believes that loving understanding of the Christ Spirit requires him to be "thankful for that which God has supplied for his needs in the person of his host . , for he believes that a simple prayer for the Divine power over his food in such a case will bless the food to his good and not his hurt , for he remembers only too well an occasion in which a small conference was being held. of UFO folk. and the host had made arrangements for a meal at a Chinese Cafe. a most well conducted place. and one of the representatives who was a strict vegetarian. , made such a fuss about going there that he caused everyone else and the host most of all, a no small amount of embarrassment. The utter lack of loving human consideration was so

blatantly un-Christlike, despite this persons claim to be much closer to spiritual things than the others. that the Editor at the time felt he had learned a great lesson. and whilst since then he too as often been embarrassed by others on similar occasions. he made it a personal rule never to display such what he felt was straight out bad manners.

The strange part about it was that this very person could have had rice and other vegetable concoctions. at that cafe . but he said the utensils used there would be contaminated with animal odours and fats and flavours. This just shows just how far one can get entangled in diet the ries.

Recently in Australia there have been many folk who have been led an guided by a devout man and one of very high ideals. who is adamant on vegetarian living . amongst many other ideas which he has been influencing his followers. The editor has the greatest respect for this man and his ideas. in many ways and goes along with him nearly all the way . but the latest bulletin put out by him contains an article of one of his followers in which she states that a much acclaimed teacher who is now amongst us. and supposed to have great teachings and inspirations from space in music etc. has told her and others that they should not even use the root vegetables of earth such as carrots. turnips swedes etc etc. milk and cheese too are out. .

The Editor feels that it is time a halt was made as to where we are being led and that a sane a sensible. and logical approach must be made to this so called space theory . for it must be remembered that this new idea is very much against what has been told us before. by space intelligences. for he recalls a few years back wherein instruction was given to be strongly aware of any such imbalanced approaches . and whilst we were to keep on a fresh fruit and vegetable regime as much as possible. that we were to be MOST CAREFUL not to be fanatical and warned at that time that there would come those among us who would try to lead us into such queer fanatical paths the whole message was full of the great need to keep a balanced state of mind as God had given us reason with which to steer our lives and any departure from this would be insulting the intelligence He gave us.

The strange part too is that the root vegetables are not so exposed to radiation as the fruits which absorb . the rain directly without the filtering the root vegetables recieve from the earth, and well as the air which could be contaminated and thus directly applied to the fruits above the earth.

All this brings us back to the great need of remaining aloof from any rabid teachers who urge us to start some new ideas they have had a brain wave about remembering one of the greatest tests of any teacher is the fruit his teaching produces. and it cannot be denied that in the main the whole of the initial ideas of the editor of that bulletin referred to above have come to naught and his plans for a colony a great complete failure. not because his ideas were not allright but because of an unwillingness to have a balanced approach as to how they should have been put into operation . and the sad part is that not a few gave up homes etc . and financial status to partake in this scheme , only to find that it was a failure . because of the lack of wisdom and knowledge to KNOW THAT SUCH A GRANDIOSE SCHEME COULD NOT BE SUCCESSFUL without an immense amount of preparatory organisation which would take years to first train people as leaders, and the place to establish itself.

All this surely shows us more and more the great need of first keeping this

balanced approach. and to avidly avoid fanaticism of any kind. for in whatever way we apply it. whether to the UFO subject or anything else. we will bring only great discredit to it and ourselves by taking any extremist view.

If we feel that the best way to prepare and fit our lives and keep them clean and free from impurities. as well as to tone us better for spiritual things, is to have a vegetarian way of life. then let us live that way. but let us beware of getting over the bend in the subject. or insisting that because we believe this is the way for us. that everybody else must follow that way . we must remember God has diverse ways of dealing with his many varied creatures. and if personally one feels that he HAS TO live even without the root vegetables. as the above one. God bless Him let him do so. but not to insist that others too have to follow his rigid ideas. and that this new way is the only way to get into attunement with the Divine. let us ponder a little on loving human consideration if we claim to be Christ-like and led by the brothers from space . and further let us TEST ANY LEADER AND TEACHER WHO COMES AMONG US BY THE FRUITS OF HIS WAY OF LIFE. for one thing is very certain . that only real TRUTH will stand the test of time . and any grandiose scheme or fanatical teaching will soon show itself to be what it's worth really is. and the amount of value and confidence in teachers. leaders, and promoters. can well be assessed by what that teaching or scheme produces. if confusion. chaos. and disorder. in life physically, mentally. spiritually is the outcome. then avoid it as you would a viper. for nothing that comes from God. or the Positive forces of LIGHT. produces anything but harmony. balance, order and perfection of these three qualities of man. if you doubt this then take a look in the sky this very night and see the perfection of order and magnificent display of geometrical design. and understand that this is NOT brought about by any extreme distorted state of mind or reason . but by perfection in design and balance of the Great Mind of the Father . whom we so feebly try to emulate . Any other form of reasoning is from the NEGATIVE forces of life. and they irrevocably sooner or later show themselves in the fruit of what their teaching produces. Lets do as the old dardie said"

" Keep in the middle of the road, brother. Keep in the Middle of the road"

PANORAMA

You have snet us in the last months your journal "PANORAMA " and we want to speak from our hearts our congratulations. that you have had the courage to strengthen the spiritual things. You will recieve the blessings from God. those only who can see the cause of all things in Him and act upon it can expect His help and Power. You will be a succesful research if you never stray from this line. Perhaps it will happen the same thing as to us, to be called a'spiritist' . We are convinced and we know that God sends us our Brothers from space in His name to bring salvation and the teachings of the universal way of life. . we can find examples in the Holy Bible. in the histories of Atlantis and Egypt. that our space brothers , far advanced. visited our earth to help us as they do it now again/ Anyone who cannot accept this has a lot more to learn . Our mission from God is to bring the message from our brothers from space to many countries. and to the peoples of earth in meetings and movie pictures to lead them back to God.

\*\*\*\*\*  
 \*\* FLYING SAUCERS . A STARTLING THEORY . \*\*  
 \*\* BY DEREK.R.M. BRAY. \*\*  
 \*\*\*\*\*

FROM THE " NATIONAL MES. AGE " ENGLAND. JULY 1957

One hesitates to advance any new theory, no matter how attractive it appears though it is fitting perhaps to write of unusual phenomena in the skies at a time when many of us will have seen the Arend-Roland comet crossing the north-western sky like a pale searchlight beam . But there is a new line of thought that has occurred to the writer which may possibly tie up with the unexplained sightings of the U.S. Air Force and the Royal Air Force of Unidentified Flying Objects hereinafter referred to as U.F.O.

The Theory .

Throughout the Bible there are occasional descriptions of angelic beings visiting the earth. These visitations seem to fall into two categories. There are those which are obviously supernatural - for example the two who stood in shining robes at the empty tomb that first Easter and spoke to Mary of Magdala, the cherubims with flaming swords guarding Eden , and the being with the live coal of Isaiah 6.6.

The second category is the one with which this article is concerned, being the appearance of angelic beings which although supernatural, appearto be normal human beings, clothed and dressed in the garb of the period, sometimes on horseback, and wearing the arms and equipment of that period. For example , in Judges 13:6 we have a ' man of God'. a term which usually describes a prophet or a holy man, who calls on Manoah and his wife, both of whom evidently imagine him to be a human. offering him food, drink and hospitality; and it is not until some time later( v. 21) that the couple realise that they have been entertaining and angel unawares. Thus it is surely logical to suppose that the angel must have looked and dressed like a normal human being .

The angel who wrestled with Jacob. must have had approximately human dimensions , if one is to take the account literally, and not explain the incident as the writer has heard it done , as ' Jacob wrestling with his own conscience'. Thus this particular angel would not have been, for example, twenty feet tall, or transparent, or equipped with vast, folding wings. as this would have made a very unequal and pointless struggle.

The angels mentioned in the Book of the Prophet Zechariah have a certain apocalyptic air about them; but, be it noted, they are mounted on horses, the normal means of transport of the day .

In the Second Book of Kings, Chap. 6, we have Elisha, the man of God, showing his servant the multitude of the heavenly Host encircling the Syrians in chariots and horses of fire, an angelic appearance en masse this time, again in the standard military transport of the day, chariots. Gideon. that very able general of Israel, in Judges 6, has some considerable conversation with an angel whom he thinks to be a normal human being, In the passage concerning Manoah and the angel, Manoah is not aware that the being is an angel until he touches with his staff the flesh and unleavened cakes which are consumed in a flash of fire.

Thus Gideon is also unaware of the supernatural until he is acquainted with the fact. ' And when Gideon perceived that he was an angel of the Lord Gideon said, Alas , O Lord God! for because I have seen an angel of the Lord face to face' Judges. 6. 22.)

Here again is an instance of an angel appearing dressed normally in the uniform of the time, but with, as in nearly every case, a face that the human realizes is out of the ordinary .

As the invading hosts of Israel, led by Moses' successor Joshua, cross the River Jordan and camp at Gilgal preparatory to their first attack on the fenced cities of the new land, an angel appears to him . Imagination can be used here to paint the picture.

The sun has set across the Judean mountains to the west, and Israel settles down for the night, their first night in the Promised land. Cooking fires are lighted and bivouacs are soon erected. There is a subdued hum and buzz of a vast concourse of people, and Joshua's mind is full of the possible plans for a successful attack on this the first strongly defended city the Israelites have met with . Previously they have been skirmishing in the desert, but now anew form of attack will be necessary; and, desiring to be alone with his thoughts for a little, he takes his sword and wanders through the lines of the tents as far as the camp perimeter, perhaps exchanging a greeting with a sentry here and there, and he stand looking up at the formidable walls of Jericho. Behind him the myriad of lights of the camp twinkle and flicker .

Suddenly he realises that he is not alone, and his hand flashes automatically to his sword hilt. In the half-light he sees the figure of a man standing quite still, watching him, with a drawn sword in his hand. and Joshua challenges him sharply, seeing him to be a soldier, but whether of his own force or the enemy he cannot make out. Only after a startling answer, ' As Captain of the host of the Lord am I now come', does Joshua realize that the being is not human, but superhuman .

Finally in Gen 19:1. Lot greets the two angels who are come to destroy Sodom , asks them into his house, and offers them hospitality as would be offered to a stranger. seemingly quite unaware of their angelic mission. Even after they have eaten a meal in his house Lot will be still unaware that his visitors are supernatural , since the mob in the street which the angels afflict with blindness, are outside the barred and shuttered door. and those inside are not yet aware of what has happened outside the door. ONLY later do the angels inform Lot of their task. Thus they must have appeared normal in both dress and behaviour.

In nearly every other case of appearances of angels to humans, the incidents fall into the first category of obviously superhuman visitations.

The strange incident during the war 1914-1918 concerning the White Cavalry can be quoted in this article with safety, whether it be fact or fiction since we are herein concerned with the theory and supposition, with the exception of the recorded appearances of angels as written in Holy Scripture.

The account by Staff Capt. Haywood of the first Corps Intelligence. 1st Army. H.Q. ( 1916-1918) records the appearance of supernatural white cavalry which, from the accounts taken down personally from German prisoners by Capt, Haywood, appeared as a normal British Cavalry regiment, mounted on white horses. Their steady advance under heavy artillery and machine

gun fire caused a panic amongst the German troops . a panic which led the German advance being held up and finally halted by ground troops.

If this story is true , and the cavalry had appeared travelling in the present day Bren-gun carriers or mounted on camels , the appearance would have lost its point, as the subject to be impressed, in this case the advancing German Infantry, would neither have understood nor appreciated the phenomenon.

Thus in every case wherein we have an account of an angelic appearance which has seemed to be entirely human to the visited party, the angels and angel. have appeared to be completely natural in form. dressed in the costume of the period and wearing weapons or using the military equipment common to the era.

The common factor linking all these heavenly visitations. apart from the category previously mentioned wherein the appearances are obviously angelic is that the heavenly host become visible in a form readily recognizable by the humans visited, or by the participants in the struggle or battle.

That the Lord of Hosts will gather all nations to the ' cup of trembling' Jerusalem , at an unknown date in the future, is a prophetic fact referred to in various parts of the Bible. , and all schools of prophetic study are familiar with the Great Day of God Almighty. A vast number of Bible students of all sects are well aware that the satanically inspired forces of Gog and Gomer. are the federation of the Communist-dominated countries which will lead to make a sudden southward thrust toward Palestine, where an act of divine intervention will occur which will make the most lurid science fiction appear pale in comparison.

Maintaining our theme of angelic appearances , and bringing the vision of the servant of Elisha of the heavenly chariots of fire up to date, might it not be that the phenomenon that ~~we~~ would strike the greatest terror into the hearts of the Communist forces would be an appearance of ' extra-galactic', or supernatural forces. Fire, hail, and earthquake, although cataclysmic and unbelievably terrifying, might appear to be a perfectly natural phenomena. although to the rest of the watching world it could be only divine intervention. There will be no mistake about it. ' Many nations.... shall know that I Am the Lord. ' ( Ezek. 38; 23)

To the divisions and columns on the southward march through the Holy Land there would be one phenomenon that would fill the invading mind with utter abject terror, a phenomenon much discussed and much written about during the last fifty years and illustrated and dramatized frequently on radio and screen , an invasion from outer space of super-human organisms, ultra-rapid of movement, invulnerable , able to work with as yet unknown laws of nature and controlled by a Master-mind far greater than any human mind.

Is it to be supposed that angelic beings will appear in these days in the medieval form of angels with harps and wings, or in chariots of fire, or rather in some form of super modern transport the form of which human minds yet hardly, have envisaged, which will be just as visible as unidentified

flying objects are today. One has only to read the clear concise account of the UFOs reported by Capt James Howard, a pilot on the B.O.A.C, North Atlantic ' Monarch ' service, to realize that these objects are far from being fiction.

The purpose of this article has been to show that whenever angelic beings have made themselves visible to man, clothed in normal costume and speaking the language of the country, they have not been identified as such until they chose to make themselves known by an overt act of superhuman power . or by identifying themselves by word of mouth. and that throughout the ages there must have been , and very probably still are, visitations by angels. probably in the majority of cases appearing as normal human beings.

If these new thoughts are too indigestible, or too far a flight of fancy for the student of fact, we can at least extract a morsel of Pauline wisdom: " Be not forgetful to entertain strangers; for thereby some have entertained angels unawares' ( Heb. 13; 2. )

\*\*\*\*\*

The Editor would like to state that he is in entire agreement with the above writer whose views are those expressed by him ever since he began to study the UFO. and because he considered them to be just what the writer above has stated. To those who have never had areal good grounding on Bible study or instruction the above may be hard to take or. even to some totally unacceptable. this is because they have not given heed to the Plan of God for this Earth and especially as it fits into today's events. and the nearness of the setting up of the Kingdom of God , or as called by some the Golden Age. and many other titles.

To aid the uninitiated. he would add . that ~~art~~ from the word and use " super-natural. it is easy to understand. The Editor prefers to regard anything called super natural as merely a natural force or action which is as yet not fully understood by man . as was the radio. television 200 years ago. when such would have been termed that. he coined a phrase long ago. " THE SUPER NATURAL IS ONLY A NATURAL LAW OF GOD NOT YET FULLY UNDERSTOOD OR KNOWN . " look at it in that light and some of these strange things will not so hard to understand.

As regards ' angels' the original word when translated into correct modern language is messenger. Heaven of the bible ' ouranous' likewise becomes outer space. chariots. referred to as being in the sky in the Bible is another way of saying transport. and being aerial. they are nothing more than aerial transport . hence added together we can truly say that the angels from heaven in chariots. are now known as . ' messengers of God from outer space. in aerial transport .

Considering the article above was written in 1957. the succeeding years have given so much more evidence to verify all the conclusions the writer made and it should not be difficult for an unbiased mind to find something to give him a great deal of thought for earnest consideration .

SOME ENLIGHTENING STATEMENTS BY GEORGE ADAMSKI.

=====

The Editor. found it necessary recently to try and clean out his volumous correspondence files which have accumulated over the last nine years, in his research work of the UFO and the hundreds of correspondents around the world. with whom it led him to be associated with. and among these piles of letters he came across the file of George Adamski, contrining the letters exchanged between the two.

Wondering what these would reveal in comparison to the later events of the doings and sayings of George. he reread with interest and great surprise some of the old exchange of thoughts etc. and as they are not exactly the confidential parts of the letters he feels that the sharing of those thoughts expressed by G.A. in the past could well be of value to many who like himself get a little confused in trying to sum up this man today and the man we knew as the first great contactee of our present time. The Editor suggests that his readers read these statements very carefully and compare them with the views he expresses and statements made in his later books. and also his claims of his recent trip to Saturn last March . It must be remembered that the MSS referred to in the letters is the one which the Editor wrote back in 1954. which he sent to G.A. and asked him to read and if possible see what could be done to publish it. Note the comments very carefully re this manuscript. and compare them with statements made in his latest book " Flying Saucers Farewell "

The Editors manuscript is still unpublished although at one time George Hunt Williamson did make an effort to get it into print. however the sudden loss of his first wife made acomplete change of plans necessary and the project was abandoned . the Editor is now seeking a publisher from another source and so far it appears it will remain unpublished.

Any underlining in the following excerpts from Georges letters are those of the Editor to draw attention of the reader .

Excerpt of letter to G.A. Dec 3rd 1955.

" I was amazed in reading your book to find that the messages delivered to you by our Saucer brothers had a meaning exactly as that which I had interpreted and that which was given to you in the sandals of your first meeting. in which I interpreted and began a small book entitled " The Message of The Saucers" for it confirmed strongly this very interpretation. ....

I am hoping by sending you a copy of this manuscript , you will see that I was in reciept of revelation from the brothers by telepathic means."..

G.A. replys. April 4th 1956.

The little you have on the symbols of the footprints is excellent, I know because I have been told their meaning... I would suggest you spend some more time and get their full content.

Editors reply April 12th 1956.

.... In the light of your advise I may rewrite the book and add other matters of interest . to take the place of the psychic evidence which you refer to. ... I was perturbed to think that you got the impression

that I was in favour of psychic interpretations mentioned in the book I beg you to re-read it in the chapter dealing with the Occult . in which

I emphatically stated that I in no way recommend such practices and I only used such because of the fact that they confirm the opinions expressed in other chapters. ..

Letter from G.A. August 9th 1956.

There have been many reasons why I have delayed in answering your most welcome letter of April 12th. but I am now urged to do so without further delay .

First I am wondering whether or not you have ~~re~~written the ms. you sent to me some time ago ?. Especially am I interested in your comment regarding the symbols in the footprints. As I have told you before. the meaning is contained in these symbols should come from others than myself for obvious reasons. Although long ago I was told the message by the brothers themselves.

Now they tell me it is important that this information be given to the world in spite of prevailing conditions ..... I shall write out what they have told me , but I should also like to include interpretations which have been worked out by Earth people . Yours I consider among the best . ( Note ) and would like your permission to include it , giving you full credit. Of course , so far I have only mentioned the type of person who would be privileged to carry this message to the people of a world. like Earth . This is why I am asking now for the whole of what you discovered there in the symbols of the footprints.

Naturally also, the whole will be submitted to the Brothers for approval or change before submitting it to my agent....

( dealing with the meeting with space brothers he says ) ... Those who come to visit me take off their flight garments before leaving their ships. but because of the many attacks upon them , for the most part they keep these uniforms on when leaving the ships. This has resulted in the many distorted descriptions of " monsters " etc.

( Is it not strange that he never once in his books mentioned these brothers as having such space uniforms on in or out of the ships. ED )

.... As for future events . it is these that the space people are closely watching with the aid of their instruments which are far superior to ours. Our Earth is changing its axis. but no one knows for sure just when it the final tilt will come. It is possible that this will take place within the next four years.

although the brothers tell me that this is not definite for certain changes could take place, even in Nature. It is this tilt too that is responsible ~~for~~ to a certain extent for the strange weather throughout the world that has been taking place the last past two years.

( Compare this with Chap. 5 of F.S. Farewell. " Changes in our system . here he says it is the recent reversal of the suns polar magnetic field.)

Editors reply Sept 8th 1956

... Firstly you say you are urged to contact me without delay, Am I to presume that this was caused by some direction from the Brothers? or a personal urge. or otherwise. ?.

As to having re-written the Ms. this I have done but only in the sense that I have added certain comments and re-edited but in no way have I altered the original ms. and adding a warning in the chapter dealing with

THE OCCULT. as at times being very unreliable and contradictory. this you have confirmed yourself. and I added your comment in support of my warning. I frankly cannot understand your meaning at times. for they seem highly contradictory. . in that you say. " long ago I was told the message by the Brothers. " this i believe , but later you say that you want ME to tell the world , and also that you will have it corrected by the Brothers. Now, if you KNOW the meaning, you would also know that my interpretation is either wrong or right. and it would be very apparant to you if any of it is incorrect . and terefor it would not need you to make reference to the brothers, in that you claim to know already having been told the FULL meaning of such. it is very puzzling to me, possibly you can explain it.

( The Editor in the meantime had been in contact with others around the world and was amazed to find that they too had found an interpretation of the symbols and altho th unknown to each other had in each case come to the same answer and conclusion of its meaning. in every case it was WHY they had come to earth at this time. Also Adamski had confirmed it with them as he did with the Editor as to its correctness. and asked them also to let him publish it. as he did the Editor. )

To continue..... I am also aware that I am not the only one you have contacted in the people who have interpreted the meanings, and it appears you have told them apparently the same as you told me, that you wanted to include their message. it seems that you want to make a comprehensive work of interpretations and add a theory of your own which you say was given by the Brothers.

.... Further after the deepest consideration I could not permit any portion of my work to be included as I am certain that MUST be printed as a whole and not in sections. to do that would only distort the true meanings for the interpretation is not given in any one section of the book. rather it is hidden in each chapter for the seeker to find. phase by phas of the future is revealed in the message as a whole , all of which the sanals portray... As to your meeting the brothers in the desert this I have never doubted, but somethings you have said lately make me doubt whether you know as much as you claim to do. It may be possible that you have overestimated your selection. for many are chosen to do a work and others to carry it on. Is it not possible that you are trying to do all the work of revelation which originally was not intended ?. for like many forerunners they but prepare the way for others to take the torch on. the fact that you have stated that you are not to give it to the world proves the above conclusion of mine.

I cannot understand your great antipathy to the occult side which is a complete reversal of your previous life , for it is a world wide known fact and you have never denied it , that you were for many years associated with such an order of Tibet . this i n no way do I hold against you. but cannot understand why all of a sudden you do not want to be assoicated with such a movement...

Here again you put a poser.. in all your writings. you have never once inferred that the brothers " wear space uniforms " of a charcater which would cause anyone to be afraid of them . Your only refernce to such clothing

has been that they had a tight fitting overall type. now you suggest that they have a uniform akin to that of our own astronauts. and similar to the comic strips. . and say this is the cause why some think them " monsters". Frankly you amaze me that you have never mentioned this before .

Your second book never once hinted that this was so. and you yourself claim to have gone into space with them

I agree with you that the casue of the coming Judgement is not so much of god punishing us. rather we punish ourselves as we alwqys do. when we break His Divine Laws.....

More of these letter excerpts in our next issue.

The above may come as a surprise to many but I feel that it now the time to make known some of these things so that a truer ev aluation of George and his work can be made. I do urge my readers to reread some of my recent previous articles dealing with G.A. in the past few Panorama magazines and the Australian Saucer Record.

To Be Continued.

#### " UFO'S AGAINST RADIO ACTIVITY.

BY

DR. Hansgeorg Weidner.Germany .

Question 43. " Is there a disruption of Electricity and Magnetism through Radio- activity ?. "

ANSWER. Yes, just like the disruptions known in the realms of chemistry between different elements , there also exists an ill-explained disruption regarding electricity and magnetism . There are several kinds of disruption . First let me mention a disruption caused by radio activity fall out.

Caused by the constantly still increasing radio-active fall out in the higher levels of the atmosphere , the aura of Earth, i.e. the protective etheric cover, is being attacked. This causes holes in the etheric cover due to unknown reactions. These also become noticeable in the fields of electricity and magnetism . Up to now they have come to notice regionally only causing either intense heat waves or developing intense cold.

If there are no clouds in front of the sun - seen from the Earth - and if the disruption is happening in the summer, it is possible for the heat waves to be so damaging that they cause burns to the skin.

Ed.( See account of Sudden heat wave and fatalities Japan . Page 15)

The radiation of the sun is meeting the surface of the Earth unfiltered, due to holes in the usually protected layer or covering. caused by the disruptions - and affecting abnormal conditions . The reverse takes place in the winter . Then no electric disruptions , changes are taking place but magnetic disruptions. As with the electric disruptions , changes in the radiation of the sun are developing, causing abnormally low temperatures within the region .

But may, or may not, be accompanied by wind. In the first condition mild to severe tornadoes may develop. which will unfold from the higher regions down towards Earth.- rarely the reverse. This occurrence is identical with the disruptive process of electricity, caused by radio-activity.

In the absence of wind. for instance in winter. Continued page 17 -

MYSTERY SATELLITE OVER ALBANY WEST AUST. Friday Sept. 7 th. 1962

A mystery satellite, travelling slowly from west to east, was sighted over Albany on Monday Night.

The sighting was made at about 6.30 p.m. The light was in sight for nearly half an hour.

Numerous Albany people reported having seen it. Other reports came from as far afield as Mt. Barker and Denmark.

The satellite was travelling very slowly and appeared to pass directly over Albany.

The local radio station . 6VA, reports being swamped with telephone calls, from the time of the first sighting.

Eyewitnesses say the satellite looked " just like a little star moving slowly". Although the sky was slightly overcast it did not interfere with the view of the object. Attempts by the " Albany Advertiser " to identify this mysterious object failed. It is believed the object was not sighted in other parts of the State.

( No satellites were known to have been travelling in that area according to Official reports. also. large objects were seen over S.Aust. that same evening. which could have been this same object as it was travelling as stated from W. to E.) Ed. Comment.

FISHERMEN SEE BLAZE IN SKY. " ALBANY ADVERTISER ". Sept. 11th 1962

PORONGORUP. Sun. A blazing object in the sky was spotted by three local fishermen today. They were fishing at Two People bay., near Albany when they saw it early this morning. They took it to be a comet. a very bright star with a long luminous tail. As they watched, the tail seemed to be gradually disintegrating particles of light breaking away from it. They watched it until it disappeared over the horizon. rapidly travelling from the east to the north west .

A quarter of an hour later .. at Boyup Brook, eight people saw what they thought was a satellite . It had a long fiery tail and was clearly visible for about three minutes before it disappeared.

( See last copy of Panorama for report of 5 children seeing 3 objects in South Aust. the same night. in which case they observed. objects going into the larger one. . Didn't know satellites did that ? Editor )

In Perth, acting Government Astronomer commented re the above that the two sightings in the West were probably of a meteor. ..

" EYE" IN JUNGLE SCARES MALAYS ... ADELAIDE " ADVERTISER ". Sept. 11th 1962  
KUALA LUMPUR. Mon. ( Note the dates as also above. Ed. )

A mystery red eye in the jungle near here has whites and the natives terrified. The eye glows ghostly red at night and glares on despite hundreds of shots at it. The natives claim the eye belongs to a demon snake with supernatural powers. ... Even the authorities are baffled. Hundreds have turned out to watch hunters fire shots at the baleful, glowing eye.

NEWS ITEMS CONTINUED.

Car headlights were used to pin-point the target. but nobody apparently hit it, or if they did the shots had no effect .  
 A policeman who fought Communist bandits for years in the jungle said today that the Hair on his arms stood on end when he saw the eye glow brighter as bullets cut through the undergrowth surrounding it.  
 A game warden said the eye could not be a demon snake or monster.  
 He thought it was the eye of an owl or some other normal creature, but could not explain how so many shots had missed it.  
 ( Suggest they get a bit of target practice over there, or maybe the scare made them use a stronger type of whiskey . Methinks we have a better explanation . but they never believeus. Do they ? and surely our explanation would be more logical than a demon snake or owl that cant be shot. and makes a hard ened . experienced constables hair stand on end. and glows back when shot at surely this determines some intelligence behind it. Well I suppose an owl and a snake have that. but what terrible shots they must have been/ Must have been the whiskey Ed.)

 EX POLISH SERVICEMAN BECOMES  
 FLYING SAUCER ENTHUSIAST .

" PENGEE AND ANNERLY NEWS " Fri. Sept. 28. 1962

From all over the world during the past few years, hundreds of letters, photographs and news paper cuttings have been pouring into a house in Penge, where they have been sorted and classified into one of the most comprehensive libraries of information about flying saucers in existence.  
 This is not because the district has any affinity with outer space, or because it has been a favorite target for flying saucers in the past , but because Penge is the home of the organiser of the 300 strong Anglo-Polish UFO Research Club. whose members live in various countries.

Mr Antoni Szachnowski first arrived in Britain with the 2nd Polish Corps in the winter of 1945. Only 16 when the war broke out, he was shipped in a cattle truck to Archangel by the Soviet Army, and spent months in a Russian concentration camp before the Soviet Union joined the Allies and he was able to join the Polish Army. He saw service in the Middle East, North Africa and Italy before coming to England, where he met many Polish pilots who had fought with the Allies throughout the war .

Some of them told him stories of weird lights and shapes they had seen on some of the sorties They had christened them 'foo fighters ' and believed they were a strange German contraption .

Later, he found that German pilots had seen exactly the same sort of lights and shapes- and thought they were a strange Allied contraption .

Mr. Szachnowski had always been interested in astronomy, and he was intrigued by these stories. . He remembered on one occasion during the war when he saw both German and Allied anti-aircraft batteries fire at curious . shining object in the sky.

When the end of the war came . some of his compatriots. decided , as he did, to stay in England. Others went abroad to countries all over the world.

Mr Szachnowski decided to run a correspondence club so that all his friends

could keep in touch with one another.

Inevitably, as the letters came in, one of the most popular topics was the one they had discussed so often- that of the 'foo fighters' and the weird shapes in the sky. .

Mr Szachnowski began to get photographs of, and newspaper cuttings about, these 'flying saucers' as they were beginning to be called.

The volume of information grew, and in 1955 the club was given its present name. He admits that there have undoubtedly been many faked pictures and questionable evidence about flying saucers, but even so. there is still a vast amount of unexplained evidence.

The above report contains a photo of a craft sent in from Poland by a doctor to Mr Szachnowski. but it would require the original for reproduction. it however displays a conventional saucer shaped object flying over a country area at an elevation of about 35 deg. and is very clear considering it has been reproduced in local newspaper material.

Our best wishes to this newly introduced associate.

\*\*\*\*\*

Quoted by the above associate in another paper.

Flying saucers created a global danger .

" General L.M. Chassin. Gen. A.F. Co-ordination of Allied Forces in Central Europe. ( NATO ) wrote that if we persist in refusing to recognise the existence of these unidentified objects we will end up one day in mistaking them for guided missiles and the worst will be upon us.

"This new association may be of considerable service to humanity, and a turning point in the flying saucer affair. "

He said he hoped the British U.F.O. Association would be the precedent for an international organisation which would mean a centrally directed effort on a global scale and perhaps gaining recognition and patronage of UNESCO"

"UNESCO should be interested in probing the 'flying saucer' mystery. he said.

\*\*\*\*\*

Concerning the above statement made by the Gen. his fears we consider have already begun to take form in that not a few of these sightings. and good ones at that. have been classified as missiles when all the evidence points otherwise. local cases alone have proved his misgivings. and these could be multiplied all around the world.

#### A SCIENTISTS DISAPPOINTMENT.

( From " Awake " Sept 8. 1962 )

When Dr Albert Einstein granted an interview to a Japanese journalist named Takada. the famed scientist said ; " In the whole history of science the manufacture of the hydrogen bomb is the most appalling mistake the scientists have ever made. " But scientist Einstein had been disappointed long before the development of the hydrogen bomb. Telling about this, Fernand Gigon wrote in his book "FORMULA FOR DEATH ".

" Einsteins secretary has told us how the scientist progressively lost his faith in mankind as his strength waned. During the war, when he wrote to the U.S. Government that his calculations were such as to make an atomic bomb a

possibility , and that he visualised the uses to which such a bomb could be put he made one stipulation when offering his help. Once the first bomb was made and ready for trial . he said , representatives of Germany and Japan , observers from neutral countries , and , of course the chiefs of staff of the principal allied powers , should meet on a desert island in the Pacific . The atomic bomb would be exploded before the gathering of experts , and the explosion would be such that the immediate capitulation of the enemy would surely follow . Thus vast numbers of human lives would be saved.

" The Government gave Einstein the promise, voted credits of more than two thousand million dollars to the laboratories, and then President Roosevelt died. The Pentagon, anxious to see the war ended , neglected the promise made to the great scientist, and looked for a target in the centre of Japan.

Einstein felt extremely strongly about the betrayal . His peace of mind disappeared ... One day surveying his life's work, he said: " If I had only known. I would have been a locksmith " .

\*\*\*\*\*

This above story contains one of the greatest indictments of betrayal we have ever heard. Judas was an angel of light compared to those who were responsible. and one thing stands very clear no balm will ever be able to be pinned on Einstein. What a judgement awaits . the leaders of that country who so foully betrayed probably the greatest scientist of our age. and used his " gift " to humanity for destruction and worse POWER CONTROL.

No wonder the brothers in space tell us we as an earth are not worthy and cannot be trusted with the yet greater powers of God's wisdom. until we lose all this and become attuned with God. the Great I AM .

### " A STRANGE PHENOMENON "

According to the Tokio Newspaper. "Mainichi Shimbun " it is reported that the sun appeared in the sky 3 days like a glowing unprotected sphere. radiating an up to now nowhere yet recorded heat - at intervals - on to the town of Matsumoto and the surrounding area. The mercury of the thermometers moved within 30 minutes five times up and down . 42 deg - 69 deg. C. People walking in the streets suddenly collapsed . Emergency aid brigades recovered 1289 persons within 24 Hrs. in Matsumoto alone , who showed first and second deg. burns , which they suffered through their clothing . 122 people died following heat stroke or sunburn mainly to head. chest and back .

Geologists and Physicists are unable to give a unanimous explanation of the cause of this sudden and frightening rhythm of the radiation of the sun . It is clear, though, that the sun's rays must have reached the Earth with a considerable power and strength without the usual protections for several days, compared with usually.

The Investigation of the phenomenon is not yet concluded.

Report received per H. Pickles of "Lichthort " Germany .

ooooooooooooooooooooooooooooo  
ooo A LETTER FROM ALAMAR ooo  
ooooooooooooooooooooooooooooo

Dear Bro. Fred.

I am encl'ing a series of pictures from Brindisi , Italy which confirms graphically my warnings on mutation due to radiation given to you a long time ago. These pictures are taken from Australian Post Aug. 16th 1962, and serve as an indictment against mankind. A blasphemy to the Almighty God.. Today in the South Island of New Zealand. a violent earthquake precipitated tons of galcial ice down the slopes of Mt. Cook, and Mt Sefton, fortunately no loss of life occurred , though buildings rocked alarmingly I believe that the dreadful earthquake in Persia which took such a huge toll of life was primarily caused as a result of atmospheric and underground nuclear explosions set off by the Soviet Union and the U.S.A. It is only to be expected that explosions of such force when detonated below the surface of the earth must find the least points of resistance and there would be fault lines or areas subject to earthquakes . I do not think that anyone could deny the logical truth of this. Do you?.

The tremedous shock waves generated by the explosions would circumnavigate the globe seeking out the weak trouble spots in the earths crust. as a result earthquake reports from fault line areas .

On the other hand hurricanes of unnatural violence are caused by atmOspheric nuclear explosions . New Zealand is not noted for hurricanes, or tornadoes but since recent U.S. tests at Johnston Island . winds of up to 104 miles p.h. have been recorded here also sudden freakish destructive tornadoes. sweeping suddenly out of nowhere.

A report recently recieved by me from Cairns , Queensland. states an increase in radio active fallout from 6. p.c. to 150 p.c. to 300 p.c. It certainly is time for all humanity to pray as it has never prayed before.

How many mutated human beings have been born to this earth and hidden from public knowledge ?. Just how low can man sink in the name of Science?. Please publish this letter and alert all peoples as much as you can . Lets hopre it will prick a few consciences. or at least shake some of the people out of their lethargy.

Yours in Service.

"ALAMAR "

\*\*\*\*\*

Thank you Bro. Alamar.

My only comment is that I feel that the general public are more concerned with watching T.V. gun battels. or wasting their money at races etc. to bother about itall. and those in high power foster to these weaknesses.. Thank Go' for the few intelligent thinking people who do protest. but alas how few. and even these are not at times supported indirectly by those who have not the courage as them to come out openly and protest. akthoough beliaiving within that such a protest should be made. how spineless so many are today. Truly fear of public opinion and loss

of prestige or vested interests. makes cowards of many. You will be pleased to know that we here too. in our little group of seekers in PREPARATION . were alerted five days prior to the Persian earthquake as to its intensity and the very area. this and many prophetic indications have been made known to quite often . by the brothers in Space. and by the gift of prophecy as promised in the Holy Word. of 1. Cor. But alas even as of old the prophets were unheeded and too. like thme persecuted. often . How sad it is that even those who profess to be His servants and Teachers. and draw large salaries to instruct the sheep. are false sheperds. and do not acknowledge these gifts in operation today. Alas these blind sheperds have soon to face the judgement for their perfidy.

### A LITTLE PRAYER .

Give me a good digestion Lord, and something to digest,  
Give me a healthy body Lord. And sense to keep it at its best,  
Give me a healthy mind Oh lord, to keep the good and pure in  
sight.

Which, when seeing evil, is not appallâd , but find a way to set  
it right.

Give me a sense of humour Lord, And grace to see a joke,  
That I may gain more joy from life. To share with other folk.

### UFO'S AND RADIO ACTIVITY Continued from Page 11

in a severe cold air stream , strong disruptive magnetic currents descend toward the surface of the earth. They gradually penetrate the surface and disturb the electricity available in the ground. In the summer the disrupted electricity causes disturbances in the magnetic fields of Earth - that is why we should watch out for more irregularities in the future. In the UFO'S there are engines which work with dual atoms and at the same time with the regulating force of the world ether . That is why they are able to regulate ( mend ) the faulty ( disrupted ) lines in the etheric covering. The engines of Earth , however, have not been sufficiently far developed enough yet . that is why unexplained failures will occur in them . Note the puzzling aeroplane mishaps. ( engine failures ) and other traffic accidents, the cause of which could not be explained.

If the disruptions of electricity and magnetism should increase caused by further atomic explosions. the electrical and magnetic poles of Earth would inevitably , also be forced off balance. This however, would contribute to further dreadful catastrophies - if humanity does not return from the wrong path.

ED. We hope to have further articles from this writer for you soon .

" WHAT SOME GREAT AND NOTABLE MEN SAY "

ABOUT THE FLYING SAUCERS.

=====

Little Listening Post Aug . Sept 1962

England's Prince Philip ( The Duke of Edinburgh ) is now on record ( In June Mc CALLS MAO. ) with 30 million readers . as defending Flying Saucers At a dinner party given by the Queen, he told friends, " I am sure they exist; all the evidence points to it. So many people say they have seen them. You should read the book, Flying Saucers Have Landed. ".

For many years, Prince Philip has been a close student of the UFOs, one of number in the highest European echelons. . e.g. Lord Mountbatten , Lord Dowding and General Chassin. And while men like General Chassin have been exhorting their fellow influentials to help get the truth to the people the U.S. Air Force has tried desperately to bottle it up. ( See General Chassins statement below ).

The result says British Editor Waveney Girvan, is that the America's role of pioneer in this farthest-out of all fields is in grave jeopardy-- RUSSIA MAY TAKE THE LEAD. " an official campaign is being conducted to prepare the Russian mind for the truth. The Government controlled press declares, first, that ' other-world intelligences might have visited us in the past'; next, that they 'might visit us in the future ', and finally, that 'they might even be visiting us NOW'

The Russians are at this moment only a hair's breath away from revealing the truth, and they keep telling their people to prepare themselves for some STARTLING NEWS in the not too distant future.

Herein may lie the greatest tragedy of our times-- Russia is bent on opening men's minds , While AMERICA keeps them closed. ( O TEMPORA: OMORES )

WHAT GENERAL CHASSIN SAID.

2 General L.M. CHassin. General Air Defence Co-ordination of Allied Forces in Central Europe. ( NATO ) . wrote that if we persist in refusing to recognise the existance of these unidentified objects we will end up one fine day in mistaking them for guided missiles and the worst will be upon us.

This new British Association for U.F.O Study. may be of considerable service to humanity , and the turning point in the flying saucer affairs.

He said he hoped the British U.F.O Association would be the precedent for an international organisation which would mean a centrally directed effort on a global scale . and perhaps gaining the recognition and patronage of UNESCO.

By  
BRINSLEY LE POER TRENCH

THE AUTHOR SAYS.

" My new book "MEN AMONG MANKIND." is due to appear next month. It traces what happened after the fall of Atlantis and the rebirth of civilisation on this planet, and the part played by the Sky People. It also highlights the glorious past of the British peoples and how it was erased. and how Britain throughout history has always been under some special guidance . It is a book which is completely different to anything yet published and traces the parts played by unusual Men among mankind right through history up to the present day . I have a lot to say about the Great Pyramid, Stonehenge, the little known Temple of the Stars ( The Somerset Zodiac ) and its meaning, and many other things."

The EDITOR Says.

Judging by the very well recieved first book of this author. and the excellent work done by the author. this new book must appeal to all research workers all over the world. for it is seen by the above comments that it has a wide coverage of subject matter, all of which is of vital interest to the thinking people of today . I suggest you place an order. for one of the first issues.
